An ISO 9001 : 2000 Certified Company

COMPANY PROFILE

GOLDSTAR GROUP OF COMPANY is a Manufacturers and Exporters of BRASS ELECTRICAL WIRING ACCESSORIES. Company has a manufacturing plant with the Strength of Skilled Laborers, Qualified Engineers Situated in Jamnagar (India). A well known Brass City in the World.

Our Company has emerged as a pioneer in the electrical arena. The Pool of proficient employees and the help of advanced technology has served the company to become a major player in its business segment.

We are approved by the major international Certification agencies. It has helped us to be recognized globally as a market leader.

The strong R & D has maintained the quality and standard according to the market needs.

Our professionally managed company is fully involved in the manufacturing & exporting of Quality and wide range of Brass Electrical Wiring Accessories including Auto Electrical Parts and many other Products..

Our Range of Products is:-

- Brass / Copper & G.I. Electrical Wiring Accessories.
- Brass Auto Electrical Parts & Accessories.
- Brass Sanitary Parts.
- Brass Building Hardware's.
- Brass & M.S. Fasteners.
- Any other Brass/Copper Components as per customers drawing and Samples.

All our products are reliable, Cost effective & durable in nature. They are in accordance with the required international quality Standards.

We have been meeting the requirements of the major industries and to our spectrum of precision components have diverse industrial applications. The wide range of superior quality products are widely used in the following industries:-

- Telecommunication
- Auto Industries
- Cable Manufacturing Industries
- Power & Electricity
- Shipping & Dock Manufacturing Industries
- Rapid transit systems
- Chemical Industries & refineries etc.

We have been appreciated worldwide for our never-ending pursuit of producing qualitative products. The sound infrastructure, professional management, required workforce has made us capable of undertaking & completing orders of all stature, within the time bound. We have been catering to the vast demand of International market products Range.

Almost 37 years of industry experience and expertise in our domain have enabled us to manufacture superior quality products. Quality is a never ending process. Our high degree of quality is maintained through a through scrutiny of raw materials, regular machinery maintenance and in-process inspection. These have been embedded into our production schedule and we are strictly adhered to. There is a strong emphasis on continuous improvement and on avoiding time delays.

We manufacture a special range of machines brass components as per client specifications in various sizes. We design and manufacture distinct brass turning parts also that are widely used in industrial applications.

Our Motto

To **Serve You** the
Quality Products
within **Reasonable Price.**

BW BRASS CABLE GLAND

BW GLAND FOR SWA CABLE

- To BS 6121 Part 1.
- Suitable for single wire armoured, plastic or rubber sheathed cables.
- Application-for use in dry, indoor situations.
- Low cost two part design.
- Shroud may be used for additional ingress protection IP 54.
- Finish : Natural Brass and also available in Electro, Tinned and Nickel.
- Threads : Entry threads are metric to BS 3643 and are also available in Imperial (ET).
- Also available in Aluminum (BS 1474) cable glands.
- Available in Kit Packing.
- Kit Packing includes GLANDS, EARTH TAG, PVC SHROUD.

APPLICATION

For use with all type of SWR cable where no seal is required on to cables inner or outer sheathing.

CW BRASS CABLE GLAND

CW GLAND FOR SWA CABLE

- To BS 6121 : Pt 1.
- Suitable for single wire armoured, plastic or rubber sheathed cables.
- Outer seal grips sheath of cable.
- For use in most climatic conditions weatherproof and waterproof.
- Seal rated to IP 66.
- Design has separate armour locking ring.
- Gland rated to IP 66 with use of suitable sealing washer or thread sealant at gland interface.
- Finish : Natural Brass and also available in Electro Tinned and Nickel.

CW FLAME PROOF GLAND FOR SWA CABLE

- As above but with these additional benefits.
- For use in hazardous environments.
- Complies with BS 5501 Pt 1 & Pt 6.
- CW for flame proof increased safety application.
- Threads : Entry threads are material to BS 3643 and are also available in Aluminum.
- Also available in Aluminum (BS 1474) cable glands.
- Available in Kit Packing.
- Kit Packing includes GLANDS, EARTH TAG, PVC SHROUD.

APPLICATION

For use with all types SWA cable and where it is essential to produce an IP 66 seal onto the outer sheath.

A1 / A2 BRASS CABLE GLAND

A1/A2 GLAND FOR UNARMoured CABLE

- To BS 6121 : Part 1.
- Suitable for unarmoured, plastic or rubber sheathed cables.
- Suitable for most indoor and outdoor applications.
- Seal rated to IP 66.
- Finish : Natural Brass and also available in ,
- Electro Tinned and Nickel.

A2 FLAME PROOF FOR UNARMoured CABLE

As above but with these additional benefits.

- For use in hazardous environments.
- Complies with BS 5501 Pt 1 & Pt 6.
- A2 F for flame proof increased safety applications.
- Threads : Entry threads are metric to BS 3643 and are also available in Imperial (ET).
- Also available in Aluminum (BS 1474) cable glands.

Assembly of Gland Body

APPLICATION

For use with all types of unarmoured and PVC cable where it is essential to produce IP 66 or explosion proof seal on inner sheath.

E 1 W BRASS CABLE GLAND

E 1 W GLAND FOR SWA CABLE

- Suitable for single wire armoured, plastic or rubber sheathed, extruded bedded cable.
- Outer seal grips sheath of cable.
- inner seal grips bedding layer of cable.
- For use in most climatic conditions weatherproof and waterproof.
- Inner and outer seal rated to IP 66.
- Design has separate armour locking ring.
- Gland rated to IP 66 with use of suitable sealing washer or thread sealant at gland interface.
- Finish : Natural Brass and also available in Electro Tinned and Nickel.

E1W FLAME PROOF GLAND FOR SWA CABLE

- For use in hazardous environments.
 - Complies with BS 5501 Pt 1 & Pt 6.
 - E1W Increased safety application.
 - Threads : Entry threads are metric to BS 3643 and are also available in Imperial (ET).
 - Also available in Aluminum (BS 1474) cable glands.
- Available in Kit Packing.
Kit Packing includes GLANDS, EARTH TAG, PVC SHROUD.

APPLICATION

For use with types unarmoured cables where it is essential to provide an IP 66 or explosion proof seal on the outer sheath
